Aug 2024 - Present · 1 yrs 5 mos

Pazh is a business growth and development company focused on building a modern website-builder platform.

- Led and mentored front-end team, maintaining high-quality standards.
- Designed scalable, modular front-end architecture.
- Conducted code reviews and enforced clean code practices.
- Planned features and collaborated with product and design teams.
- Resolved technical challenges and guided the team through problem-solving.
- Implemented professional SEO capabilities to enhance search visibility.
- Integrated Google Schema (structured data) to improve SEO performance.
- Configured sitemap, robots.txt, and essential SEO infrastructure.

Exir

Front-end developer (full time)

Aug 2024 - Jul 2025 · 1 yr

- Contributed to front-end development for business directories, exchange directories, and token-based applications using Next.js, TypeScript, and modern web technologies.
- Developed scalable and modular front-end structures to support multiple ongoing projects.
- Assisted in code reviews and maintained clean, organized, and maintainable implementations.

International Informatics (i3center)

Front-end developer (part time)

Aug 2021 - Jan 2024 · 2 yr 5 mos

Anformatic International is a digital marketing and web development agency focused on building websites and supporting business growth. I worked on front-end development for catalog, e-commerce, and landing page projects, using modern web technologies to create responsive and user-friendly interfaces.

- Developed and maintained front-end for multiple projects, ensuring high usability and engagement.
- Built responsive and visually appealing interfaces aligned with design and marketing requirements.
